- Modified Existing Software to correct bugs, upgrade Interface and improve performance.
- Using Agile Methodology/ Scrum to meet timelines with quality deliverables.

Bugs identified by team, send to local repo, tested by other team member and pushed by them

Debugging assigned and refactor existing code,  
 =p[!;  
 p[0=  
 application type,  
 tracking techentions and in home furniture repair service

Ashly, Bob's discount furniture, RoomPlace, wayfair

## Education

### Pure Platform Internship

October 2018 - October

2019

Jr .Net Developer

I was involved with two main projects, one in HealthCare and the other for an ECommerce application. Responsibilities included :

- Worked with a fax service, an API Service that enables sending and distributing faxes with useful and varied features.
- Worked on an API service to upload & download files to sftp server using encrypted username and password.

---

### TrueCoders Bootcamp

May 2020 - August

2020

*TrueCoders Alumni*

- The TrueCoder Bootcamp is a project and lecture-based training program that aims to fill the growing need for data science and software development jobs.
- Projects include multiple personal and group-oriented tasks that involve multiple programming languages throughout the program.

- Over 500 hours of intensive, project-based training in programming languages and other technical skills, such as SQL, C#, .NET Core, Git, ASP.NET MVC, HTML, CSS, and JavaScript.
- C# and SQL Projects were tracked in Git and GitHub for source control

**Reavis High School**  
2020

August 2016 - June

*High School Diploma*

Top 300 High Schools in all of Chicago! Earned my Diploma after attending for 4 years!
